

## Where Can I find An Anesthesiologist ?

Board Certified Veterinary Anesthesiologists teach anesthesia and pain management at all the veterinary colleges in the US and Canada as well as most veterinary colleges outside of North America. The anesthesiologist may perform the anesthesia themselves, in addition to supervising the case management of all the patients receiving anesthesia. Please use an internet search to find a veterinary college near you if feel you would like to have an anesthesiologist supervising your pet's anesthesia. In addition, there are several private specialty practices that employ board certified anesthesia specialists on their staff. The list of anesthesiologists listed in "Find An Anesthesiologist" on this website provides the locations of some of these anesthesiologists; however this is not a complete list. If you do not see one listed in your area, please contact the ACVAA Executive Secretary [execdir@acvaa.org](mailto:execdir@acvaa.org) for information.
